Northern Utah's first

Energy Efficiency & Renewable Energy Fair!

FREE

Help make Utah and the U.S. a world leader in clean, renewable energy!

Tuesday, April 27th • 1:00–4:00 p.m.

Salt Lake Community College Student Center at the Redwood Campus • 4600 Redwood Road

AWARDS will include certificates and limited scholarships for junior and senior projects, along with recognition by sponsoring institutions.

Winners from **grades 6-12** in the appropriate categories at the **regional state science fairs** will be invited to participate.

PROJECTS will be chosen from the following Science Fair categories:

- Engineering: Electrical & Mechanical
- Engineering: Materials & Bioengineering
- Energy & Transportation
- Environmental Management
- Environmental Sciences
- Plant Sciences

ENERGY CONSERVATION ACTIONS In addition to the science fair exhibits, a two page written description of two energy conservation actions will be required, one at home and another at school, which will engage a broader range of family, students, and faculty. The written description may be enhanced by photos on separate paper.
